#### FOR REPRESENTATIVE.

##### HON. R. C. JARNAGIN.

We are authorized to announce Hon. R. C. Jarnagin, of Beaver Dam, as a candidate for re-election for Representative, subject to the action of the Republican party.

LAST week Judge John P. Morton was granted license to practice law. He has resigned his position as deputy Circuit Court Clerk and will devote his time to the practice of his profession. Judge Morton has served two terms as Judge of the Ohio County Court, and is well fitted for the practice of law.

THE friends of Mr. M. L. Heavrin, who are responsible for his candidacy for Attorney General are proud of the very warm support he is receiving from the Republican press of the State and the very friendly encouragement given him by Republican leaders from every section of the State. Mr. Heavrin's justly credited reputation as an able lawyer, his special fitness as a public leader and his splendid personal character justify the confidence to the liberal support that is being accorded him by the people and the press.

OUR esteemed contemporary, the editor of the *Herald* is one of the freest free-pressers of the complimentary pen of the local press of Ky. There was a distinguished free silver orator about his office from Thursday to Saturday night when he was to expatiate on the free silver question, but he said "narry word" about him not even did he mention the fact that he was a caller at and a loafer about his office. After those beautiful bills were circulated advertising the lecture of their distinguished friend we expected that scribe to compliment praise and compliment again and mention as an actual fact that little boys were picking up bits of eloquence from the floor of the court hall and about the public square, but he said "narry word." Wonder what's wrong?

THE Commercial Convention held at Louisville the first two days of this week, was in every way a success. Representatives from the important towns and from nearly all the counties in the State were present. The agricultural, mining and manufacturing and other interests of the State were brought before the representatives of the various sections of the State in a manner which cannot fail to materially help every interest represented. There is probable no feature of this very commendable enterprise that will be productive of more good to the business interests of the State than the bringing together of the various classes and the cultivation of a spirit of mutual interests and good feeling which would do much to destroy the senseless and damaging prejudice now existing between the different business interests of the State.

ABOUT eight months ago the plan of laying a net work system of telephone lines in Ohio county was begun. Since that time Hartford has been connected by the Cumberland Telephone Co. with Calhoun, Owensboro, Evansville and points intervening and through the exchange of that company, we are able to talk to points in our sister states 1,000 miles away. The Ohio County Telephone Co. has connected Fordsville and points intervening with Hartford. Two lines now connect Fordsville with Owensboro and a line extending from Fordsville to Shreve and Glendene connects all points in that section and the greater portion of Breckinridge county. The Hartford Telephone & Exchange Co. have made it possible for the citizens of Pleasant Ridge, Buford and Boda to be in instant communication with Hartford and Beaver Dam. They have a 'so about fifty residences and business houses in Hartford connected with the exchange. A line that would be of greater service to the largest number of people in Ohio county is the proposed line connecting Rochester, Paradise, Rockport, Echols, Mc-

Henry, Williams and Render with Beaver Dam and Hartford. Mr. Moses Mattingly, of this place is the promoter of the plan. He proposes to build and operate the line connecting the points mentioned at 10 cents per talk, except Rochester, which will be 25 cents, provided that the people at the several points mentioned will subscribe for a certain amount of tickets at the rate mentioned. It is also proposed that for ten cents extra any of the points mentioned will be connected by exchange directly with Owensboro. This is the fairest and best proposition offered by any man or company in Ohio county. Much time could be saved by the business men and farmers along the line and many a long trip through the heat of summer or cold and mud of winter could be avoided. Think about it, buy the necessary amount of tickets to get it, and make the enterprise ago.

### THE HERALD HUMILIATED.

Prof. C. F. Armistead, a Virginia Judas Icarus of the colored race whom the *Herald* brought here to make a free silver speech failed to get a hearing at the court house Saturday night. The table skinned professor arrived here about the middle of last week, but the colored people of Hartford would have nothing to do with him, and he made his headquarters at the *Herald* office. It was a novel sight to see a big slick negro as black as a June thunder cloud quartered about the office of that great stickler for the Caucasian race, which two issues ago said, "The rising generation of negroes are more vicious and immoral than their ancestors."

The *Herald* got out some spicy hand bills announcing the Professor's speech, but when the hour arrived, the Ferginny nigger, the editor and the publisher of the *Herald*, a couple of colored men and two or three white men who had dropped in out of curiosity made up the crowd. They rang the bell and waited, but the good colored people of Ohio county were not ready to encourage the hiring of their enemies and very sensibly stayed away. When the hour hand pointed to nine, the editor of the *Herald* slipped quietly off for home and left his chief with an audacious Ferginny nigger orator on his hands. The bell was rung some more and again they waited. The moon rose, the wind whistled and the mosquitoes sung, but the colored folks came not, and finally the Ferginny nigger approached the chairman of the meeting—the publisher of the *Herald*—and asked him what he thought about it and the chairman said he did, and the meeting adjourned.

### COMING ISSUES.

The State campaign approaching promises to be one of the most interesting, the most remarkable and the most hotly contested campaigns ever known to Kentucky politics and one upon which more depends, than was ever known before in the history of the Commonwealth.

The question of expansion will not figure in the approaching campaign, it appears also that Democracy will not attempt an abusive campaign against the present administration because it has been one of the most successful administrations ever given the State by the servants of any political party since its organization and admission into Statehood. "Free silver or bust" is predestined to be one of the planks upon which the emancipated form of feeble Democracy must stand. It appeared to the minds of thinking men after the memorable campaign of 1896 that every fallacy, false comparisons, misrepresentation and everything else that the human mind could conceive, calculated to mislead and misdirect the voters of the country had been resorted to, and it is now interesting to know what will be the future policy of silver Democracy as it shapes and forms itself for another campaign of misrepresentation and demagoguery. The song of the "great crime of '73" was sung by every howling Democratic stumper from Canada to the Gulf and from ocean to ocean. It is old and stale. They must have another song. What shall it be? The great cry that silver governed the price of every commodity from a peck of potatoes to the Philippine Islands has been proven by time to be a gigantic fallacy. The opposite to everything predicted by Democracy in that campaign has come to pass, plenty of work, plenty of money, good prices and good markets. Of what specie will the next hatching be? That the present election law will be one of the leading issues in the campaign, is conceded by every right thinking citizen. Under no circumstances or condition can the issue upon such a shameful measure be dodged. It was conceived in corruption and brought forth from a political hell. The vilest political devil heaven's sun ever shown on would not change the wording or meaning of a single sentence contained therein. Its purpose is to dictate the will of the people, its object control of the ballot box. In its full operation is corruption in its most hideous form. Every lover

of liberty and freedom who cherishes a patriotic love of his country and as a guardian of its interests should ponder this momentous question long and well.

### Holding Sheriffs Responsible.

United States Judge Barker has given a new turn to the discussion of how to check the lynching evil. In an Indiana case the family of the victim sued the sheriff of the county for \$25,000 damages, on the ground that the prisoner was in his care and keeping. The judge upheld this contention, and in rendering his decision said:

If the law imposes a duty of care in respect to animals and goods which he has taken into his possession by virtue of his office, why should not the law impose the duty of care upon him in respect to human beings who are in his custody by virtue of his office? Is a helpless prisoner, in the custody of a sheriff, less entitled to his care than a bale of goods or a dumb beast? The law is not subject to any such reproach.

This decision sets a precedent which will arouse sheriffs to a new conception of the responsibilities devolving upon them. They will protect prisoners, even by force of arms, against mob violence. Further, they will be likely to use all effort to identify the leaders of mobs, that the latter may be brought to justice. Judge Barker's decision is based on common sense, and we have no doubt the supreme court of the United States will uphold it, should the case be carried up.

The principle of this decision affects also the safe keeping of prisoners. If the sheriff is responsible for allowing one to be taken from the jail by force, why is he not responsible to the county for allowing prisoners to escape from the jail by their own efforts?

The Earlington Bee pays a fitting tribute to the Hon. M. L. Heavrin Ohio county's candidate for Attorney Gen.

Ohio county has a candidate for Attorney General in the person of Hon. M. L. Heavrin, an able lawyer at the Hartford bar. The Hartford Republican describes him as possessing all the necessary qualifications and thinks him among the most desirable of candidates. Other papers are reflecting this opinion. The Bee thinks that Western Kentucky is the place to get Republican candidates this year. Hopkins will finish the winning Governor if our sister counties will arrange the rest of the ticket with strength equal to its head. May we can find a little place on the ticket for the mountain districts—Earlington Bee.

### CENTERTOWN, KY.

Most of our farmers are done planting corn and are preparing tobacco land.

No dangerous sickness around us. Lewis Goodall has lately repaired his residence on Walnut St. and gave it a coat of fresh paint, which adds greatly to the beauty of the house.

Mrs. Tom Benton and son Matthew spent several days in visiting friends in Hartford last week.

Several of our young people went to hear Rev. Sam Jones at Hartford last week.

Mrs. Fannie E. Davis, and Mrs. H. Davis, and son and daughter spent last week with relatives and friends at Point Pleasant.

Mrs. Jessie R. Jones, of Hardin county Ky. is visiting her son Silas Jones of this town.

Murrah for the nominee of the Republican party for representative and senator. And when you want your county ticket filled come down and take a peep at our State.

### DIXIE.

From the Hopkinsville Major. You are correct and mistake not neighbor.

Among the names mentioned for Attorney General we find many who favor Ohio County's gifted son, the Hon. M. L. Heavrin. Should he be nominated we feel sure he would add much strength to the Republican State ticket.—Major.

**KIDNEY** Is a deceptive disease—thousands know it. If you want quick results you can make no mistake by using Dr. Kilmer's Swamp Root, the great kidney remedy. At druggists in fifty cent and dollar sizes. Sample bottles by mail free, also pamphlet telling you how to find out if you have kidney trouble. Address, Kilmer & Co., Binghamton, N. Y.

### Morton-Townsend.

To the many friends of the contracting parties we announce with a keen sense of pleasure the marriage of Prof. T. J. Morton, of Hartford, to Miss Lucy B. Townsend, of Cobden, Ill., which occurs about the 20th of July. The rites of matrimony will be pronounced, and sacred vows of life entered into, and the hearts of the two noblest young people whom Hartford has ever known will beat as one.

It has been the good fortune of the writer to enjoy from boyhood an intimate acquaintance with Prof. Morton. It is a pleasure to bear witness of the personal worth and merit of him. Prof. Morton was born on a farm near Prentiss about 30 years ago. His opportunities to obtain an early education were very meager, only having the advantage of a few months training in the district school. From early boyhood he was desirous of obtaining a higher education and to this end his leisure time was devoted to diligent study.

At an early age he began teaching with the hope in view. Of obtaining a collegiate education after engaging in teaching, then in the dry goods business for a period of years, he entered Hartford College, from which institution he graduated with distinction in 1895. After completing the A. B., course in Hartford College he entered a post-graduate course in DePaw University, Greencastle, Ind., graduating in 1897. As a recognition of his marked ability and profound research he was given a position in the chair of organic chemistry in that institution which position he held until he accepted the Presidency of Hartford College. Prof. Morton is a teacher by profession and by rich heritage of nature, a man of strong character cherishing the highest ideals of life.

Miss Townsend was reared and educated at Anna, Ill. She came to Kentucky in 1897, to teach school. From the beginning of her school work she enjoyed the unlimited confidence and esteem of both pupils and patrons alike. Her work in the school here just closed, has met with the hearty commendation of our people. Miss Townsend is a beautiful and charming lady of rare accomplishments possessing every attribute of a noble christian woman. Prof. Morton is to be congratulated on winning the hand and heart of such an estimable lady. THE REPUBLICAN joins in the wish that the white winged birds of peace may strew flowers of happiness along their pathway and that the troubled waters of the sea of life may ever be serene and peaceful.

Last fall I sprained my left hip while handling some heavy boxes. The doctor I called on said at first it was a slight strain and would soon be well, but it grew worse and the doctor then said I had rheumatism. It continued to grow worse and I could hardly get around to work. I went to a drug store and the druggist recommended me to try Chamberlain's Pain Balm. I tried it and one half of a 50-cent bottle cured me entirely. I now recommend it to all my friends.—F. A. Babcock, Erie, Pa. For sale by Z. Wayne Griffin & Bro.

### Traveling in a Circle.

"As I understand it," said the head then, "you propose to civilize me?" "Exactly so." "You mean to get me out of habits of idleness and teach me to work?" "That is the idea." "And then lead me to simplify my methods and invent things to make my work lighter?" "Yes." "And next I will become ambitious to get rich, so that I won't have to work at all." "Naturally." "Well, what's the use taking such a roundabout way of getting just where I started? I don't have to work now."—Washington Star.

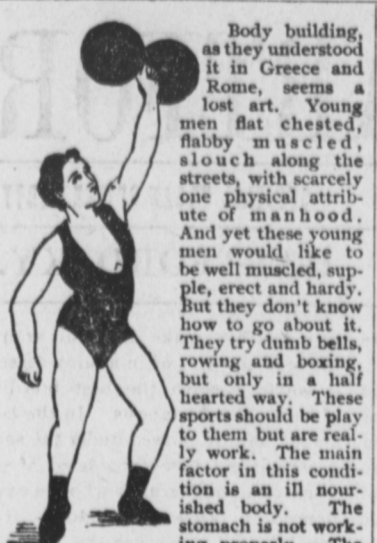

If Bill Goebel can keep the Democratic voters away from the county conventions he will make his calling sure, but then comes the election, which the Goebel bill does not quite abolish.—Post.

### Would Not Suffer So Again for Fifty Times Its Price.

I awoke last night with severe pains in my stomach. I never felt so badly in all my life. When I came down to work this morning I felt so weak I could hardly work. I went to Miller and McCurdy's drug store and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It worked like magic and one dose fixed me alright. It certainly is the finest thing I ever used for stomach trouble. I shall not be without it in my home hereafter, for I should not care to endure the sufferings of last night again for fifty times its price.—G. H. Wilson, Liveryman, Burgettstown, Washington Co., Pa. This remedy is for sale by Z. Wayne Griffin & Bro.

### Mr. Harrison in Paris.

Paris, May 26.—Former President Benjamin Harrison, who is acting as the representative of Venezuela on the boundary commission, which meets here on June 15, has arrived in this city. The United States ambassador, Gen. Horace Porter, is arranging for an interview between President Loubet and Mr. Harrison.

Body building, as they understood it in Greece and Rome, seems a lost art. Young men flat chested, flabby muscled, slouch along the streets, with scarcely one physical attribute of manhood. And yet these young men would like to be well muscled, supple, erect and hardy. But they don't know how to go about it. They try dumb bells, rowing and boxing, but only in a half hearted way. The main factor in this condition is an ill nourished body. The stomach is not working properly. The digestive and nutritive organs are not in active health. The result is that the nutrition for the body is not distributed in proper proportions to make blood, bone and muscle.

Weak young men who take a course of Dr. Pierce's Golden Medical Discovery will find a marked change in their physical strength and energy. The body will be built up so that gymnastics will not tax and tire them, but be the natural exercise enjoyed by muscles which are nourished into firm health.

In a letter received from A. D. Weller, Esq. of Pensacola, Florida, he states: "I have since receiving your 'Golden Medical Discovery' and must say that I am transformed from a weakling to a man. I value your remedy very highly and take pleasure in recommending them to any and all who suffer as I did. Four months ago I did not think to be in shape to assist our 'Trust' in case of hostilities, but, thanks to you, I am now ready for the emergency."

Dr. Pierce's Pellets cure biliousness.

A Democratic remark: "There were no trusts until there was a Republican party. The best way to get rid of the trusts is to defeat the Republican party." It is true that during the Democratic regime, there were few "trusts." In fact there was such a loss of confidence in business circles generally that few were trusted, and the majority "busted," and business was at a stand still.—Princeton Republican.

### "Pride Goeth

#### Before a Fall."

Some proud people think they have strong constitutions, and ridicule the idea of disease. Such people neglect their health, let the blood run down, and their stomach, kidneys and liver become deranged.

Don't be foolish about your health. Use Hood's Sarsaparilla and you will prevent the fall and save your pride.

**Scrofulous Hip Disease.**—My boy Willie had scrofulous hip disease from a baby. Abscesses developed. Months at the hospital, with best treatment, did no good. They said he would never walk again. He was helpless and wasted away to nothing but skin and bone. Hood's Sarsaparilla had helped me, and I gave it to him. Imagine my delight at a wonderful change. Abscesses all healed, crutches thrown away. He is now tall and stout, perfectly well and the thanks are all due to Hood's Sarsaparilla. Other mothers with crippled children should know this. Mrs. EMMA V. DUFF, Walpole, Mass.

**Nervousness.**—I was weak, nervous and very delicate, staggered in attempting to walk. Hood's Sarsaparilla and Hood's Pills made me well. I feel like another person. Mrs. LIZZY STEWART, Conduit Street, Ex't, Ammanford, Md.

**Dyspepsia.**—We all use Hood's Sarsaparilla. It cured my brother-in-law and myself of dyspepsia. I owe my life to it. M. H. KIRK, 607 Franklin St., Philadelphia.

**Hood's Sarsaparilla**

#### Hartford College.

The annual commencement exercises of Hartford College close to-day, this also closes the school year which has been a splendid one for this well and favorably known institution of learning. The attendance has been large, students from many different counties in the State having been in attendance during the year. The work done by the students has been of the highest order and their conduct cannot be excelled anywhere. The attendance of students from abroad has been so large as to cause many citizens to say that "The old time prosperity of Hartford college has returned." On account of some very unfavorable circumstances, the prosperity of the school was blighted for a short time, but now no school in this section of the State affords a stronger faculty, a more thorough system of training, or a better opportunity for young ladies and gentlemen to acquire a thorough and practical education. Hartford College has long been famous for its practical instruction and excellent discipline and it stands to-day without a superior in this part of the State. The people of Hartford and Ohio county have always been proud of this institution of learning and at the present it holds a high place in the estimation of the people of this whole section of country.

Prof. Morton and Shultz who by their energy and skillful management have contributed so much to the restoration of Hartford College to its former prosperity will have charge of the school again next year. They will be assisted by an able body of teachers selected because of their special fitness for the positions to be filled. Though the year just closed was a brilliant success in every particular next year promises to be the most successful year in the history of the institution. During the past year a good deal of apparatus has been added to the departments of chemistry and physics, also several hundred specimens have been added to the geological collection, in fact no opportunity to improve the working facilities of the school has been left unimproved, and at the present time the school is better prepared than ever before in its history to meet the most exacting requirements for useful and thorough instruction.

Decoration day was fittingly celebrated at Baizetown Tuesday. A very large concourse of people assembled to pay another tribute of respect and honor to the heroic dead. Capt. N. T. Howard, of Morgantown, was the chief speaker of the day. He made a most excellent speech which was well received and highly complimented by all who heard him. Capt. Howard is a logical, forceful, and impressive speaker. In him is combined every requisite of a typical Kentuckian. His sociability and strong personality always win for him the esteem and confidence of all with whom he comes in contact. These traits coupled with his brilliant record as captain of a company in the famous 3d Ky., form the ground work of a most inviting future.

### LaGrippe,

Followed by Heart Disease, Cured by DR. MILES' HEART CURE.

M. B. C. SHULTZ, of Winterset, Iowa, inventor and manufacturer of Shultz's Safety Whiffletree Coupling, writes of Dr. Miles' Heart Cure. "Two years ago an attack of LaGrippe left me with a weak heart. I had run down in flesh to mere skin and bone. I could not sleep lying down for smothering spells; frequent sharp darting pains and palpitation caused a constant fear of sudden death, nothing could induce me to remain away from home over night. My local physician prescribed Dr. Miles' Heart Cure and in a few days I was able to sleep well and the pains gradually lessened, and finally ceased. I reduced the dose, having gained fifteen pounds, and am now feeling better in every way than I have for years."

**Decoration at No Creek**

Notwithstanding the downpour of rain in the early morning people assembled to do honor to and to cherish anew memories of our departed brave and loved ones. The exercises of the day were impressive and fitting. Col. C. M. Barnett was the chief speaker but short addresses were also given by others. The generous hospitality of the community was forcibly demonstrated when at noon a most sumptuous dinner was served. The memorial services ordained in memory of the soldier dead of our country is calculated to cultivate and foster the spirit of patriotism in the rising youth of our country. From a social and from a political point of view a more beneficial or praiseworthy order could not be conceived. The future of our country depends upon the loyalty of its citizens and that loyalty is founded and rests upon their patriotism. A love of country and a warm admiration for its glory-crowned dead and its living soldiery should be planted in the bosom of every youth of the land.
